Wetaskiwin Recipient of Shameful and Injurious Treatment by Alta. Govt.

Sidetracked and Discriminated Against—East and West Traffic to Be Diverted North of City—Main Trunk Road East Will Not Follow Long-Established Route

Premier Brownlee and Hon. O. L. McPherson, Minister of Public Works, flatly turn down request of large delegation backed by strong public opinion Expending large sums of money needlessly in this undertaking and refuse to develop Western country by taking over Pigeon Lake road.

In order that the public may be informed as to the raw deal handed Wetaskiwin by the Provincial Government in the location of the main trunk road East, we are publishing the correspondence relating to the whole matter. On May 21st a large delegation interviewed the Government and presented the following memorandum:

Wetaskiwin, May 21st, 1928

We are a Delegation appearing before you to protest as vigorously as is in our power against the survey by the Department of Public Works, which proposes to change the route of the Main Highway East of Wetaskiwin in the immediate neighborhood of the City, and which alteration in the location will perpetrate a gross injustice on the City, and cause irreparable injury to this large centre of population, by which the East and West traffic, especially to and from the North, will be diverted from the City.

We are given to understand that the reasons advanced in favor of the proposed change are primarily to get away from railway crossings, especially one they claim is dangerous, and to avoid mistakes in location, which might mean large expenditure in later years to correct.

We submit that in this case at least, these arguments are not well founded, and cannot in any sense offset the injury that will be done to Wetaskiwin by the change, and our answer is that the Ballhorn Crossing considered dangerous by Government officials is not a dangerous crossing, not one accident of any kind has occurred there. It is not nearly as dangerous as any of the crossings between Wetaskiwin and Edmonton. Trains travel faster over the Calgary-Edmonton line in both directions, while the trains from the East over the Ballhorn Crossing necessarily travel very slowly up the Gwynne Hill, and are well in control going East down the grade, as they are only allowed to descend slowly for there are several sharp and dangerous curves on the way down. There are only four passenger trains daily over the East line, compared to ten over the Calgary-Edmonton railway, while the number of freight trains are in the same proportion. The crossing near the City on Court House Avenue, which would be used in the proposed location, is every bit as dangerous as the Ballhorn Crossing which it would replace, as trains travel just as fast and are not under any better control than at the Ballhorn Crossing.

As regards the argument that they wish to avoid mistakes by looking to the future, our reply is that what can be termed dense traffic will never crowd this highway. East and West traffic will be divided amongst several highways, and it is not fair, nor is it good business or sound statesmanship, to penalize Wetaskiwin for such a remote possibility.

Suppose for a moment that it were a possibility in the distant future, it would mean the rebuilding of less than five miles, and the money would not be wasted on the old location, as it would in the meantime provide a main high-

(Continued on Page 2)

Selling Alberta Trio Guests of Kiwanians at Luncheon

The three young ladies who brought Wetaskiwin into prominence at the Women's Institute conference by winning the provincial championship in the Selling Alberta competition, were guests of the Kiwanis on Tuesday evening and gave very interesting and educative talks.

The team is composed of Misses Doris Hanna, Lauretta Vickers and Norma Nelson, with Mrs. J. A. Rodell in charge. Mrs. Rodell, who introduced the speakers, briefly explained how the competition was instituted. From the 71 institutes in Alberta, 30 had teams entered in the contest, hence the fact that Wetaskiwin won, brought a great deal of honor to the city and credit to the girls who had the distinction of winning.

The girls selected Dairying as the subject for the address and demonstrations, on account of this community being one of the foremost dairy sections in the west. Each of the speakers referred to some phase of the dairy work, and while one of the ladies was speaking, the others were busily engaged in churning or making Babcock tests of cream. Miss Hanna concluded the addresses by referring to the great advantages of Alberta for dairying, among them being the climate, good water and luxuriant feed.

The club decided to co-operate with the Board of Trade in the preparation of an exhibit from this community to be entered in the district competition at the Edmonton Exhibition.

The club also endorsed the Safety First scheme for boys and girls, as sponsored by the Edmonton Journal.

The next luncheon will be held at

(Continued on Page 4)

Mun. Dist. of Montgomery Grants $2,000 to Hospital

The regular meeting of the Council of the Municipal District of Montgomery was held in the Council office on Saturday, June 2. All the Councillors were present.

The minutes of the last meeting were read and adopted on the motion of Councillor Bussard.

Correspondence was read from the following:

The Beulah Home, Edmonton, soliciting aid in carrying on the maternity work of the home. They pointed out that the work carried on by them was essential to the well-being of the Province, that it was absolutely undenominational and that the Home was dependent on grants for its upkeep. The letter mentioned several, municipalities who were making grants varying in amount from $1000 to $50.—Moved by Councillor Maygard that a grant of $30 be made to the Beulah Home, Edmonton. Carried.

The Wetaskiwin Kiwanis Club wrote re the Carnival to be held during the summer and asking for the cooperation of this Municipality in making it a success.—Letter ordered filed.

A deputation from the Wetaskiwin Hospital Board waited on the Council with regard to the grant and the agreement for the ensuing year. The financial position of the hospital was gone into and discussion centred around the rates charged and the possibility of getting a new hospital built and the curtailment of a lot of the overhead charges that at present had to be carried. It was pointed out by the deputation that if the grants could be doubled for the next year or so, as they were not at present actually required for current charges, with the interest that could be accumulated on them, in a very short time something tangible could be done. The Council was informed that the City of Wetaskiwin had already agreed to give double this year, subject to the rural municipalities doing so.—Moved by Councillor Shantz that a grant of $2000 be made to the Wetaskiwin hospital on the same terms as last year's agreement. Carried.

By-law No. 28-5, authorizing the purchase of an Adams leaning wheel twelve foot road grader and two No. 4 road patrols was read a first and second time.

P. J. Kuster interviewed the Council re the turn in the road under construction at N.E. corner of Sec. 7-46-23-4. It was agreed that the committee in charge of the expenditure of the government grant would meet Mr. Kuester on the spot and decide what should be done at this point.

Joe Metjeka interviewed the Council with regard to a road diversion that had been surveyed on his property. The matter was left for the Councillor concerned to deal with.

On the motion of Councillor Shantz, by-law No. 28-5 was given a third reading and finally passed.

Moved by Councillor Maygard that the bills and payseets be passed for payment. Carried.

It was decided to hold the next meeting of the Council on Saturday, July 14th.

PUBLIC WARNED AGAINST BOGUS TEN DOLLAR BILLS

Business men and the public generally are warned against counterfeit ten dollar bills supposed to have been issued by the Banque Canadienne Nationale. These bills are being circulated in the city of Edmonton, where several have been passed this week. The counterfeit bills are shorter and narrower in size than the genuine ones and, in addition are colored black and gray on the face and blackish gray on the back. The genuine bills, issued February 1st, 1925, are colored dark brown and black on the face and dark brown on the back.

Town Topics

Mrs. Musgrave of Elnora, is visiting her sister, Mrs E. Barnett.

• • •

E. Barnett is on a trip to Peace River for a couple of weeks.

• • •

Mr. and Mrs. A. Jensen expect to leave on Saturday for Victoria and San Francisco on a three weeks' vacation.

• • •

Miss Rita Hanson left last week for Edmonton, where she has accepted a position as stenographer in the Court House.

• • •

Mrs. A. S. McColgan left Tuesday evening for Victoria and Seattle, where she will visit relatives for the summer.

• • •

Dr. and Mrs. Shillabeer returned Wednesday morning from Chicago, where the doctor was taking a post graduate course.

• • •

Miss Marjorie Walker, nurse-in-training at the Lamont Hospital is spending her holidays with relatives and friends in town.

• • •

C. W. Taylor of the Grey Goose Cafe left a few days ago for San Francisco on a business trip, and expects to be absent a month or two.

• • •

Miss Marie Ellis, nurse-in-training at the University Hospital, Edmonton, is spending her vacation with her parents, Mr. and Mrs. Alf. Ellis.

• • •

The Norwegian Lutheran Ladies' Aid will meet at the home of Mrs. H. Gullekson, two miles east of Wetaskiwin, on Thursday, June 14, at 3 p.m.

• • •

Mrs. Nelison, president of the Rebekah Assembly, paid an official visit to the local lodge on Tuesday evening and a very enjoyable time is reported.

• • •

Mr. and Mrs. George E. Wiseman are spending part of their vacation in Calgary this week. Mr. Wiseman is also attnding the grand lodge of the A.F. & A.M.

• • •

At the grand chapter meeting of the Order of the Eastern Star, held in Calgary last week, George E. Wiseman of Wetaskiwin, was honored by being elected associate grand patron.

• • •

H. L. Higgs of Vernon, B.C., was in the city the fore part of the week on business and shaking hands with his many old friends. He looks as though the mountains were agreeing with him.

• • •

Mr. and Mrs. H W. Wright left a few days ago for Vancouver and other places at the coast, where they will spend a holiday. Mr. Wright's host of friends are glad to know he is greatly improved in health.

• • •

E. E. Chandler and V. C. French intend leaving today for the coast. The former will visit his son and other relatives in Oregon for a month or two, and the latter will attend the Kiwanis International convention, as the delegate from the Wetaskiwin club.

FARMERS POOL MODEL FOR THE WORLD TO COPY

Regina, June 8.—In the estimation of forty foreign delegates, representing the majority of world's producers and consumers at the international conference, Canadian farmers have organized a marketing machine that is a model for the whole world to copy. United Kingdom representatives of the most successful and numerically largest group of co-operative consumers in the world paid the Canadian agrarians this tribute at the close of the third international conference. Russia's delegates and those from Italy, the United States and Australia endorsed this view.

And fourteen states of the republic have had their representatives observing and listening during these discussions. There already with pools formed and others forming have been busy asking questions of the Canadian pool executives. They admittedly are framing or have framed all their producers pools along the lines worked out by the Canadians.

They have even gone so far as to ask the Canadian executives to name men from the prairies to whom they will offer very handsome salaries for a term of years to work out for them on the Canadian lines their grain pool organizations.

Condition of Crops All That Could Be Desired Throughout the Prairies

Winnipeg, Man., June 11.—With every portion of the prairie provinces receiving liberal rainfall during the past week, crop conditions throughout the entire west are all that could be desired, according to the weekly crop report issued here today from the Agricultural Department of the Canadian Pacific Railway. In South-west Alberta where rain was most needed some districts had as much as forty-eight hours precipitation. Crops show better promise than they have done at this time for many years. The young grain is uniformly strong and vigorous and there are very few "spotted" areas to be seen. So far little damage has been reported from worms or grubs of any kind. Due to previous dry spell cutworms were expected, but this has not been the case, as only in a few districts have they made their appearance. Due to lack of moisture earlier spring weeds did not germinate and weeds are not very apparent in fields. Grain now has good start over any possible weed growth that may develop. Recent frosts did not appear to have caused any damage to field crops and only small amount to gardens. Grass is abundant everywhere and cattle thriving.

General prospects in Manitoba have been improved with rains. So general was the rainfall that no point in the province reports lack of moisture. With seeding completed crop went in under ideal conditions.

Throughout Saskatchewan crops coming along well and giving promise of good returns if normal rainfall during growing period is forthcoming. Weather has been cooler with general rains and conditions are especially favorable for best root development.

Weddings

WEBSTER—RHOME

A quiet wedding was solemnized at the Presbyterian Manse, Wetaskiwin, on Monday evening, June 11, when Mary Jane Rhome and Richard Dennis Webster, both of Wetaskiwin, were united in the bonds of holy matrimony. Their many friends will be pleased to note that Mr. and Mrs. Webster intend to make their home in this city.

Rev. P. C. McCrae officiated at the ceremony.

TRAUTMAN—McMANUS

A very pretty wedding of wide interest was solemnized at 8 o'clock on Tuesday morning, June 5, at Sacred Heart church, Wetaskiwin, when Molly, eldest daughter of Mr. and Mrs. John McManus became the bride of Mr. Walter Joseph Trautman, Rev. Father Valravens officiating.

The bride was charming in a lovely frock of green georgette crepe with hat to match. She carried a bouquet of white carnations. She was attended by her sister, Miss Rose McManus, who wore a dainty frock of rose crepe-de-chine. The groom was attended by his brother, Mr. Leonard Trautman.

After the ceremony, amid showers of confetti the happy couple left for a honeymoon trip to Banff and other points. On their return they will reside on the groom's farm in the Duhamel district.

Obituary

MRS. EVENSON

Another of the early and highly esteemed residents of Wetaskiwin passed away on Saturday in the person of Mrs. Christina Olivia Evenson, at the advanced age of seventy-four years, eleven months and four days. She was born in Sundsvall, Sweden, and was married there in 1872 to the late Lars Soderstrom, who died in 1903. To this union nine children were born, eight of whom are still living. In 1910 she came to Wetaskiwin and the same year was united in marriage to the late O. Evenson. For several years, deceased made her home with her son, Albert Soderstrom, where she has been tenderly and patiently cared for.

She leaves to mourn her departure a family of eight children, namely, Otto and O. Soderstrom of Seattle; Mrs. A. Edstrom, Mrs. A. Walin and Mrs. L. Lindquist in Sweden; Albert and Fred Soderstrom and Mrs. Ed. Johnson of Wetaskiwin; as well as twenty-one grand children and two great grand children. She was of a religious nature and had been a lifelong member of the Swedish Lutheran church.

The funeral took place on Monday, service being conducted at the Swedish Lutheran church by Rev. O. H. Miller, assisted by Rev. P. M. Meyer. A large number of friends were present to pay their last tribute of respect to the departed. The pallbearers were Messrs. E. Lundell, A. Erickson, A. Anderson, S. Carlson, J. G. Berg and C. H. Swanson. The interment was in the Wetaskiwin cemetery.

ARCHDEACON RIX CALEDONIA BISHOP

Prince Rupert, B.C., June 7.—The Ven. Archdeacon G. A. Rix was yesterday elected bishop of the Anglican diocese of Caledonia. There was but one other candidate, Rev. R. J. Renison, rector of Christ church, Vancouver. Archdeacon Rix was chosen on the second ballot.

The bishop-elect has served as administrator of the diocese since the death of Archbishop Duvernet. He has been a resident of Prince Rupert for fifteen years, coming here from Orangeville, Ont.

Archdeacon Rix is a nephew of J. J. Rix of Wetaskiwin.

Town Topics

The Girl Guides held a church parade to Immanuel church on Sunday.

• • •

We have been favored with good growing weather during the past week, and everything is now developing by leaps and bounds.

• • •

The interior of C. F. Richards' store is being altered, and when the work is completed the premises will be greatly improved.

• • •

F. R. Pike, formerly of Wetaskiwin, has been appointed as manager of a branch of the Bank of Montreal, recently opened up in Winnipeg.

• • •

J. E. Burkholder has greatly improved the appearance of his premises by having his lawn enlarged and levelled and a boulevard put in.

• • •

Lawrence Lambert gave a very delightful concert in Angus Theatre on Sunday evening, which was greatly enjoyed by all who heard it. J. E. Buchanan was the accompanist.

• • •

Workmen are busily engaged removing a partition and fitting up the store recently vacated by the Wetaskiwin vendor. The premises will be occupied by George Lowry Limited, who is enlarging his grocery department.

• • •

A social time under the auspices of the Luther League of the Swedish Lutheran church will be held at the home of E. Lundell, on Tuesday, June 19th. A short program will be rendered and lunch, consisting of pie, ice cream, coffee and doughnuts will be served. A cordial invitation to all.

• • •

Messrs. E. Reynolds and E. Rupertus overhauled and repaired a Curtis airplane motor for P. O. Larbeckno, of Tofield and tested out same very satisfactorily. This is the first airplane motor to be overhauled in Wetaskiwin. Can you foretell how many air motors will be in this city ten years hence?

• • •

The last meeting of the C.W.L. before vacation, took place on Thursday evening last. Mrs. N. Beguin was named as delegate to the Dominion Convention to be held in Calgary the last week of June, and Mrs. McIlhargey was appointed alternate delegate. Owing to the special necessity for funds because of the parochial undertaking of the building of a presbytery, it was decided to hold two events in the early fall, a tea and food sale in September and a card party in October.

MRS. ENMAN'S PUPILS GIVE DELIGHTFUL REVUE

Angus Theatre was packed to the doors on Wednesday evening last to enjoy the song and dance revue given by Mrs. Enman's School of Dancing and Expression. The program was quite lengthy, consisting of twenty-eight numbers, and was excellent from start to finish. Many of the dances were quite difficult, but the young artistes gave evidence of very careful and painstaking teaching, and their performances were very creditable. We will not attempt to particularize, as all the items were good, but the impersonation of "Sis Hopkins and Her Beau Billious" given by Mrs. Elenoire Rosenroll is worthy of special mention, as she had the audience in roars of laughter throughout the entire number. The revue evidenced the fact that Mrs. Enman is a teacher of no mean ability, and she is to be heartily congratulated upon the quality and variety of the program given on Wednesday evening.

NORWEGIAN LUTHERAN CHURCH

Evangelist E. L. Scotvold from Minneapolis, will speak in the Norwegian Lutheran church on Wednesday, June 20th, at 8 p.m. The service will be conducted in the English language.

POLICE COURT

L. Holland of Leduc, was fined $5 and costs by R. M. Angus on Monday on the charge of driving his car on the wrong side of the highway. He collided with an auto driven by J. P. Johnson, whose car was badly damaged.

Alberta's oil fields promise to rival all the great oil fields of the world combined in production.

Outlaws from Edmonton Threaten Clean-Up Here During the Karnival Week

Famous Gang From Capital City Expected to Participate in Big Baseball Tournament, Along With Several Other Fast Teams—Karnival Arrangements Well Under Way

There's going to be some real stuff in the way of baseball at the tournament being staged here in connection with the Big Three Karnival on July 2, 3 and 4. Seven teams at least, it is anticipated, will be in the draw and two games each afternoon will furnish thrills aplenty on the new diamond which will be in condition second to none in the province. Right now it's passable for tournament, but continued labors will bring the playing field well nigh to perfection. Of particular interest is the fact that we are practically assured that the famous Edmonton Outlaws will be here in full force, with the same gang which made many clean-ups last year in various tournaments. The local team expects to be in real mid-season form for the occasion, and expect to make a highly creditable showing, notwithstanding the fact that it is realized that plenty of opposition of a stellar variety will be furnished. Bashaw and Ponoka, of the Battle River League, will be among the contending teams, and it is expected that the crews from Viking, Killam and Red Deer will kick up considerable dust.

The services of a first-class umpire are being secured.

Two bands will be in attendance, it is announced, and there will be several platform attractions as well as races and other entertainment providing features.

Arrangements are well under way for the Karnival doings at the curling rink each evening. There'll be the spike game, dart game, horse shoe pitching contests, Bingo, hoopla, blanket, ham and chocolate booths and other forms of entertainment, in which a number of new features will be introduced. Wheels will be taboo, on account of pressure being brought to bear by the powers that be in other communities. The games and contests will be those where skill will be the deciding factor, but the fun and frolic will be none the less furious than in other years. Dancing will be in full sway each evening from early till late, with the Boys in Blazers furnishing the latest and best in the musical line.

And then there's the Kandle Kontests each evening. Monday night at 7 o'clock a candle 4 inches long and ⅞ inches wide, weigh t 1 oz., will be lighted and on Tuesday night another one of practically the same dimensions will be touched off. Wednesday evening an 8 inch candle weighing two ounces will be lighted. The persons making the closest deductions as to the actual time consumed in the life of the respective candles will receive a C.C.M. bicycle, a leather Morris chair and a Victor Orthophonic Paloma. Of course it will cost twenty-five cents every time you desire to deposit a coupon on which the calculation must be registered, and there need be no limit to your efforts except that they'll cost you two bits per.

INFURIATED BULL GORES SADDLE HORSE TO DEATH

When Eddie Lyseng of the Armena district undertook to rope a Holstein bull which he had sold to a local butcher, the animal raised objection to the roping and manoeuvred the horse and rider into a corner. Mr. Lyseng was fortunate enough to escape from Mr. Bull, but the horse was so badly injured that it had to be destroyed. The bull was later shot by Jos. Gau, of Camrose.

Many Citizens Visit Library and Enroll on Opening Day

An event of interest in the history of the city took place on Saturday when Wetaskiwin's Public Library was thrown open to the citizens. Like many great movements of serious purpose and lasting value its opening took place quietly without ostentation or blare of trumpet and began its career by getting down to business without any ceremony. To Mrs. M. A. Doupe goes the honor of being the initial patron on the opening day and from 3 o'clock on Saturday afternoon until 5 and from 7 to 9 in the evening the Librarian was kept busy enrolling members and recording the books as they were taken out.

Up to the present the number of membership cards taken out is 59 and the number of books loaned amount to 77, leaving that number of vacant places on the library shelves.

Pinned up on the library wall is the copy of a painting entitled the "Discoverer," depicting a party surmounting the Rockies and discovering the Pacific. The Librarian chose this as symbolic of opening the Library on Saturday after the hard work of the volunteers who have assisted him in accomplishing the task. The role of discoverer was taken to find out how many people in Wetaskiwin were really interested in books and to discover the percentage of the population who are readers.

The fact discovered that over 2000 volumes have been donated and during Saturday afternoon and evening over a hundred visited the library (although inclement weather prevailed) and that 77 books have been taken out at the start, makes a gratifying disc-

(Continued on Page 4)

Mun. of Bigstone Hospital Support Greatly Increased

A council meeting of the M.D. of Bigstone 459 was held on June 7th at Lone Ridge, with J. L. G. Rattray, Reeve, and Councillors C. J. Hanson, Rattray, John Hanson, Krause, Arnold and Hellmers in attendance.

The minutes of the previous meeting were read and adopted on motion of Coun. C. J. Hanson.

Letter from Wetaskiwin Carnival Committee was read and filed.

Letter from Dept. of Municipal Affairs notifying council of the approval of the appointment of T. S. Steedman as Secretary-Treasurer of the Municipality, was read and filed.

By-law No. 36, a by-law authorizing the purchase of a tractor from the Union Tractor Co. for the use of the Municipality, was read three times and finally passed on the motion of Councillor Krause.

Moved by Councillor Krause that Dr. McColgan be allowed $15 to help cover expenses as delegate to the convention of Public Health Officers at Calgary. Carried.

Motion by Coun. Rattray that each division be charged at the rate of $8 per hour for the use of the tractor and grader. Carried.

Motion by Coun. Hellmers that foreman on Government work be paid $8 per day and first graderman 75c per hour, 2nd graderman 50c per hour. Carried.

Mayor Montgomery and Dr. Johnson then interviewed the council in connection with the agreement with the Wetaskiwin hospital. Mayor Montgomery explained the need and different views for the building of a new hospital in the future.

Motion by Coun. Hellmers that the Municipality enter into an agreement with the hospital at the old rate of $800 per year.

Amendment by Coun. Arnold that the sum mentioned be $1500.

Counter amendment by Coun. Rattray that the sum mentioned be $1200.

Counter amendment of Coun. Rattray carried.

ANNUAL CONVENTION WETASKIWIN, JUNE 21

The annual convention of the Wetaskiwin Federal Constituency Association will be held in the U.F.A. Hall, Wetaskiwin, on Thursday, June 21st, commencing at 10 a.m. Wm. Irvine, M.P., will speak and representatives of the Pools and other speakers will also be present.

All business intended for the U.F.A. annual convention next January should go through this meeting, and it is anticipated that many matters of interest will be dealt with.

Officers for the ensuing year will be elected.

Locals are urged to send delegates, and all residents of the constituency are invited to attend as visitors. All sessions will be open to the public.

In the evening a dinner for all delegates and visitors will be held in the Driard banquet room at 6:30 p.m. All welcome.

DEATH TO THE FLY

If there is no breeding place for flies there will be no flies. The almost total disappearance of stables from cities has removed a prolific source of fly propagation. But not all the spots which assist the fly in preserving his species were in the vicinity of stables. Where there is filth there will be flies and where flies go there will be some of the filth accompany them.

Time was when flies were endured as an inevitable annoyance without an appreciation of the menace to health their presence is. They swarmed because no effort was made to eradicate them. That era is past, but there are still those who tolerate conditions which in effect are not inimical to the interests of the fly. Not every house occupant can prevent flies from seeking entrance but every one can keep them on the outside. It is within the province of all to refuse to purchase food products which are accessible to flies.

Were everyone to eliminate breeding places on his own premises and to screen and swat, the fly soon would become as completely extinct as the monsters of which we know only through their fossil remains. The fly is small but he makes up in industry and persistence what he lacks in size. We become alarmed when an epidemic threatens, yet too many of us tolerate the fly when we know his capacity as a disease carrier. Because he is no novelty we minimize the peril which he may transmit.

(Continued from Page 1)

way into the City, and would always be used, no matter what change was made. Surely Wetaskiwin is entitled at lest to this consideration and to the benefit of the doubt as to any change over being necessary.

We will briefly outline a few reasons why the main highway entering Wetaskiwin from the East should follow the present trail for the first five miles, rather than the proposed new route.

1. No distance would be saved by making the change. The present road is just as short as the proposed one.

2. It serves a greater number of farmers along the route, and is much more desirable from a tourist standpoint, passing through a splendid farming district with nice farm homes facing the highway, while there is only one set of buildings adjoining the proposed road. It has been aptly compared to a residential street as classed with a back alley.

3. No railway crossings will be eliminated. There will be one crossing in either case.

4. The railway crossing at present in use is not a dangerous one as experience proves, for during the twenty-two years it has been travelled over, no accident of any kind has occurred at this point. This is known as the Bailhorn Crossing.

5. The demand that roads be kept open for winter traffic is one that must be met. The proposed road parallels the railway on the North for about two miles and would be much more expensive to keep open during the winter than the present one, which is better protected from drifting snow.

6. The present road will be cheaper to construct. A good foundation is already laid, the natural lay of the land permits of a minimum expenditure in road construction, and no expense will be incurred in right-of-way or fencing, which would be necessary if a change was made.

7. Motor traffic will never be as heavy over this East and West road as over the North and South highway. There is only one North and South highway through the Province and it is not probable that there will be any more constructed in this direction, while there are eight or more East and West routes over which traffic in this direction will be accommodated, and it would appear that any unnecessary expense to take care of the present or prospective traffic would be unwarranted.

8. A great injustice would be perpetrated on Wetaskiwin by the proposed change, as it would virtually side-track the City by making it possible to use a short cut off of less than three-quarters of a mile, and all through traffic, especially to and from the North, would be diverted away from the City and not through it.

9. Public opinion is strongly opposed to any change being made. A committee representing the Wetaskiwin Board of Trade, the Municipal Council of Montgomery and the Council of the City of Wetaskiwin, at a meeting called to consider the situation, passed a resolution asking that the old route be retained and the wishes of those providing the money to carry out the improvement should be respected.

Prominent men from all parts of the constituency, including Mr. Sparks, our member, not interested directly in the road, all express the view that it would be most unfair to Wetaskiwin to make any change, and the citizens of the city are a unit in opposing the new location. A government is supposed to reflect public opinion, we ask that you do so in this instance.

Why is it that Wetaskiwin has to be made the goat in this case? We have made careful enquiry and from our information this Government has in no single instance attempted to sidetrack a centre of population in the Province, of the size and importance of Wetaskiwin. Why discriminate against our city? Surely we can demand and expect your favorable consideration to our request. We believe you wish us to speak plainly in the matter. If you turn us down and disregard our request, you will do so in opposition to the wishes of our citizens and the public generally. You will create an ill-feeling that will grow as time goes on, and will open a gulf between the Government and the City that can never be bridged, and you will leave yourselves open to severe criticism that might react very unfavorably at a future date, for the people as a rule will not stand for anything unjust.

Wetaskiwin as a City has stood behind this Government, has supported it in a generous manner, and in return we have always received fair treatment at your hands, and expect the same in this instance. We look to Mr. McPherson, and to you, Mr. Premier, to see that we get justice. You have the reputation for fair dealing and for honesty of purpose, and we entertain the belief that you will not fail us at this time. If Wetaskiwin is unjustly treated in this regard, it will always leave a sore spot in the minds of the people of this important centre of population. We feel it would be better for Wetaskiwin if you leave the roads in the condition they are than locate a highway that will put us off the map as far as this road is concerned.

C. H. RUSSELL,
President, Wetaskiwin Board of Trade.

H. J. MONTGOMERY,
Mayor, City of Wetaskiwin.

To:
Hon. J. E. Brownlee, Premier; and
Hon. O. L. McPherson, Minister of Public Works.

Office of the Premier, Alberta
Edmonton, May 22nd, 1928

Dear Sir:

We have carefully considered the representations by the delegation that waited upon us yesterday, Monday, May 21st, with reference to the location of the main trunk road East to Camrose.

As we intimated to the delegation no more difficult or vexatious question comes before us than the various local interests aroused by the location of our main highways, and we can only endeavor to deal with this problem in the spirit of justice and equity, both to the travelling public and the various Municipalities, Towns and Cities concerned.

I think I should point out that your memorandum is incorrect in suggesting that we have discriminated against the City of Wetaskiwin for the reason that in no other case has a highway been taken past a centre of population without going through the main business section. There are instances where it has not been thought advisable in the interests of the travelling public to follow this course.

As our plans contemplate bringing this highway from a point at the N. W. quarter of Section 24 to the limits of the City, a careful analysis leads us to the conclusion that the only conceivable injury to the City by this location may be the loss of the very casual and incidental business that may come to the City by such traffic as passes from the East en route north towards Edmonton, or the alternative direction by reason of the proposed cut-off from the said N.W. quarter of Section 24 to the Calgary and Edmonton main highway. We feel that any such loss will be very slight in any event and is much more than offset by the advantage to the general travelling public by the better grade that can be built for the proposed road and the elimination of the level crossings which would otherwise have to be crossed.

For this, and other reasons fully explained at Wetaskiwin by the Honorable Mr. McPherson, we cannot see our way clear to alter the decision of the Department.

Yours very truly,
E. J. BROWNLEE.

H. J. Montgomery, Esq., Mayor,
Wetaskiwin, Alta.

Wetaskiwin, May 29th, 1928.

Hon. J. E. Brownlee, Premier,
Parliament, Buildings,
Edmonton, Alberta.

Dear Sir:

Your letter of the 22nd instant received. Needless to say we were very much disappointed at your decision. From the uncompromising attitude of Hon. Mr. McPherson, Minister of Public Works, both on his visit here and at our conference in Edmonton, together with his apparent total disregard for the wishes of our citizens, and his haste to get away from our meeting on Monday, which was called at a time named by yourselves to meet our Delegation, and which common courtesy would demand that he remain to the end of the meeting, we expected nothing favorable from him, but we believed you would show more sympathy with our request, and ventured the hope that you would intervene in our behalf.

We feel, however, that the members of the Delegation were justified in going to Edmonton and protesting against the change in location of the main trunk road East. Wetaskiwin has vested interests that should not be ignored, and any change that will in any respect interfere with these interests should not be sanctioned or carried into effect, and for any injury caused the City by the change, the blame and responsibility can be placed squarely where it belongs—at the door of your Government.

In regard to that portion of our memorandum which you state is incorrect, if you refer to it you will see that it sets out that no other place in the Province the size and importance of Wetaskiwin has been sidetracked. This we understand is correct, although a few smaller places may have been so treated, but even in these cases they probably were never on the old trail.

We fully appreciate the difficulties you have in coming to a decision in the location of main highways where there are opposing factions interested in different routes. This does not apply in our case, as locally there is no demand whatever for the change you are making, public opinion being practically unanimous in favor of the present route.

It does seem strange that your Government have money thus to spend in the duplication of highways, which in this instance alone will run into thousands of dollars, and appears to us to be a needless expenditure, while you have refused, owing to lack of funds, to take over the Pigeon Lake highway as a main trunk road as it once was, and give to the farmers West of Wetaskiwin who have no railroad facilities, and whose advancement and development is being seriously retarded, the benefit of a hard surfaced highway over which to market their commodities—surely the interest of the farmers should be the first consideration, even before that of the travelling public.

Your refusal to grant the request of our Delegation is causing bitter resentment here, and I feel that I must, on behalf of the citizens of Wetaskiwin, make one final appeal to you and your Government to further reconsider the question and hope you will accede to our reasonable request that no change in location be made. The members of the Delegation believe you favor our request and are willing to grant it, but do not wish at this stage to interfere with the plans of the Public Works Department. It is never too late to correct a wrong and the change can yet be made without loss of prestige to anyone, and I appeal to you to again go into the question with a view to meeting our wishes in the matter.

The Board of Trade and City Council meet on Tuesday, June 5th, and I hope to have a favorable reply by that time to announce at these meetings and through the Press that everything has been satisfactorily arranged. Newspaper men are pressing us for copies of all correspondence in connection with the negotiations, but we will withhold everything until hearing from you.

Yours truly,
H. J. MONTGOMERY, Mayor.

Office of the Premier, Alberta
Edmonton, May 31st, 1928

Dear Sir:

I have your letter of the 29th inst. to which I feel that very little reply is necessary. We usually expect to accept full responsibility for any decisions which we reach and will do so in this case.

Your reference to Mr. McPherson is entirely unfair. A date was given to your delegation a week before you came to Edmonton, but apparently, for very good reasons, your delegation did not come. I received on very short notice an intimation that you would be here on Monday and accordingly notified Mr. McPherson. He had other appointments arranged but an hour was fixed which would give your delegation more time than is usually allowed to similar delegations before he would have to leave. It is extremely unfair to suggest that there was a discourtesy intended when he left.

It would be well to remember that at this particular time of year he is besieged by requests from all over the Province for attention to road matters and he is probably the most hardly pressed of the Ministers.

I have only to add that we have given the same sympathetic attention to the representations made on behalf of the City of Wetaskiwin as we are accustomed to give to representations coming to us from any source whatever, rural or urban, and have reached a decision which we consider to be in the best interests of all our people who may be affected by the location of this road. If any individuals choose to receive our decision with any spirit of bitterness we can only express regret, but, as I intimated to you when you were presenting the petition from the City of Wetaskiwin, we cannot be influenced in our decisions by any such expressions or by threats.

Yours very truly,
J. E. BROWNLEE.

H. J. Montgmery, Esq., Mayor,
Wetaskiwin.

Wetaskiwin, May 21st, 1928

To:
Hon. J. E. Brownlee, Premier; and
Hon. O. L. McPherson, Minister of Public Works.

We wish to appeal to the Government to place in the Class A classification the road from Wetaskiwin through Pleasant Prairie, Brightview, Lone Ridge, Falun, Pigeon Lake summer resort, Westerose, Battle Lake, Yeoford, and on to Breton or Winfield on the L. & N.W. Railway, and make provision at once for its construction.

It would serve more people and be more in the public interest than any other road in this district, and on behalf of the Board of Trade, the citizens of Wetaskiwin, and residents West, we urge upon the Government the great necessity for this highway.

The territory East of Wetaskiwin is well served by railways and good roads no farmer being more than 12 miles from market, while farmers in the West are greatly handicapped by the absence of roads and are 30 miles from market. This condition is retarding development, and a good main highway as outlined above would be a God-send to the Western settlers, as well as a great benefit to the City.

CHAS. H. RUSSELL,
President, Wetaskiwin Board of Trade.

H. J. MONTGOMERY,
Mayor, City of Wetaskiwin.

(Copy)

Office of the Premier Alberta
Edmonton, May 23rd., 1928

Dear Mr. Russell:

The Cabinet has considered the representations made by you on behalf of the Wetaskiwin Board of Trade that the Pigeon Lake Trail should be classed as an "A" road instead of a "B" road as at present. In doing so we have had regard particularly to the argument that it serves a district that is not supplied by rail transportation facilities. This argument has been strongly urged upon us from time to time by Mr. Sparks, M.L.A.

You will, of course, at once appreciate that the same argument can be applied with equal force to many other portions of the Province. It may be that some time in the future the Government should turn its attention to such districts, but we believe in the interests of all people, urban as well as rural, that we should first use whatever money is allocated by the Legislature towards the construction of main trunk arteries to the highways serving the principle portions of the Province, East and West, having already completed the main trunk road North and South.

The highways already classed as "A" will absorb all the money we can allocate to main highways for the next four or five years at least, and until we have dealt with these highways we do not feel we can commit ourselves to any further programme. In the meantime, through the Legislature we are voting a very large sum annually for the purpose of assisting Municipalities in the construction of class "B" roads.

Needless to say, in our present programme we are endeavoring to deal as fairly as we can with all portions of the Province.

Yours very truly,
J. E. BROWNLEE.

C. H. Russell Esq.,
Wetaskiwin, Alta.

Suffered Tortures From Headaches

PUBLIC OWNERSHIP vs. PRIVATE CONTROL

Pres. C. J. Yorath Gives His Views

(From the Research Bulletin)

MID-WEST UTILITIES LIMITED
Calgary, May 22nd, 1928.

J. E. Fraser, Esq.
Editor, Research Bulletin,
Wetaskiwin, Alta.

Dear Sir:

I acknowledge receipt of your letter of the 18th instant enclosing copy of a quarterly Bulletin issued by the Union of Alberta Municipalities, and must congratulate you on both the idea and the issue.

I enclose herewith an article on "Public vs. Private Ownership." The subject is such a broad one that it can hardly be dealt with in a short article, and I certainly take issue with the views expressed by Mayor Montgomery, particularly when he says that public ownership is more efficient than private ownership. In fact from my own personal experience and observations I would say that there is no question that private ownership is far more efficient than public ownership. The service demanded by the public of the former is far greater than of the latter, in fact the people seem to put up with more inefficiency from a publicly owned utility, as for instance you will find at the present time telephone pole lines are down all over the Province through a storm which occurred three weeks ago. If this had been a privately owned company there would have been an outcry in all the papers about the inefficient service. Another instance of what private ownership can do compared with public ownership is shown in the following:

We have submitted an offer to the City of Edmonton which means that we will pay them annually considerably more than they are now making out of their own utilities towards the relief of taxation and at the same time we will reduce the domestic rate by 2c, something which the publicly owned utility has been unable to do.

In Saskatoon we have also offered to pay the city more per annum than it can make out of its own utilities towards the relief of taxation, and also to reduce rates from 8c to 6c—something which they have been endeavoring to do for years but which they have been unable to accomplish.

From my observations as President of the Edmonton and Calgary Gas Companies, I note that the public consider the service given by the private company is very greatly superior to that given by the City utilities. It may be a coincidence, but the country which has made far greater progress in its development of electricity, and incidentally, industry, is the United States, where 94 per cent of the electric light plants are owned by private companies.

Yours very truly,

C. J. YORATH,
President.

Mid-West Utilities Limited.

PUBLIC VS. PRIVATE OWNERSHIP
Opinion of Labor

View of late Sam Gompers.

The late Mr. Gompers in a speech at Montreal in June, 1920, said:

"I believe there is no man to whom I would take second position in my loyalty to the Republic of the United States, and yet I would not give it more power over the individual citizenship of our country.

"It is a question of whether it shall be government ownership or private ownership under control. If I were in the minority of one in this convention I would want to cast my vote so that the men of labor shall not willingly enslave themselves to government authority in their industrial effort for freedom.

"In the case of private operation we find continuously brought into play the qualities and conditions which tend to maximum business efficiency —experience, knowledge, special training and the zeal arising from opportunity and self interest. On the other hand in the case of public operation, we find these essential qualities largely excluded through the working of a principle of political selection, suited to and inseparable from political action, but wholly unsuited and repugnant to business action and tending greatly to impair efficiency and economy in its performance."

A British labor mission visited the United States in 1926 to discover and report back the secret of the prosperity and high wages which the workers in America enjoy. The electric utilities of Great Britain have been developed and operated for the most part by municipal authorities. It is therefore of particular importance to note that the members of this British mission ascribe the progress of the United States to the electrical development which private ownership has made possible.

One member of the mission reported on his return to England in these words: "In my opinion the factors that go to make for high wages and high production in America include a straight deal and confidence between employers and their men, modern plants and equipment, as well as care and consideration for the health and welfare of the workers."

Another member of the mission, speaking of the disadvantages under which a British factory labors, said: "Our employers are cruelly handicapped by excessive taxation—especially local—in comparison with their American competitors; while in the matter of cheap and abundant electric power, they are simply not in it. A leading authority on electric development in the United States told our party that the position of electric power for industrial use in Great Britain is a disgrace to our intelligence. After what I have seen in the States I can well believe him."

Another member of the mission reported: "If we had America's electric power and some of its best machinery, together with the good feeling which undoubtedly exists between the workmen and the management in industrial plants in the United States we could hold our own with the best in the world."

Another member of the mission reporting on conditions he found in the United States said: "The development of electrical power and light plants has given a cheap factory drive, cheap transportation, and has lightened the labor, not only of the factory operative but of the housewife."

Another member of the mission in making his report made the following statement: "American employers of labor know that the payment of high wages results not only in high production, but also in cheaper production. They also know that they can maintain, increase and still further cheapen that high production with the aid of the abundance of cheap electric power, which is at their disposal."

Eastern Canada's Experience

In a series of articles published in the Montreal Herald and reprinted from, it was stated:

1. Montreal consumers have had the cheapest electrical light and power in Canada.

2. Montreal City (hence the taxpayers) has had the cheapest street lighting and electric power for other civic purposes in Canada.

3. As profits have accumulated the public has in a measure benefitted by reduction in rates and improved service.

A striking comparison between public and private ownership is that of Toronto and Montreal: The City of Toronto, with public ownership, pays more for lighting service per capita than does Montreal with private ownership.

The figures for three years are as follows:

Per Capita Cost	1921	1922	1923
	cents		
Montreal	47	45	43
Toronto	66	67	73

Although having the lowest rates and better service, Montreal users of electricity pay the enormous sum of $1,028,683 in taxes, compared with Toronto's $12,144.

The return per k.w. hour in Montreal is 1.224 of a cent compared with 1.30 of a cent in Toronto or an increase of 47 per cent under public ownership.

Municipal and Private Electric Power Plants

Dr. E. Lincoln, of Harvard University, comparing the results of the operation of seventeen municipal plants and seventeen private plants in Massachusetts, said: "The average rate is somewhat higher for the municipal than for the private plants and municipal plants also serve the public less well. The municipal plants have poorer equipment than the private plants, nor do municipal plants extend their service as fully as private plants. Municipal plants usually avoid the less profitable districts or parts of the service.

"Municipal plants, for instance, have a smaller capacity and less extensive distribution system in proportion to the population in the city it serves than is the case for private plants," he continued. "For municipal plants nearly all service extensions are paid for by the customers which is not the case for private plants. The municipal plants while thus endeavoring to play safe are mostly doing so by failing to provide needed service.

"Such failures to furnish service when it is reasonable to demand it is found extremely injurious to the industrial development of the community served and constitutes one of the most telling arguments against municipal ownership and operation.

"The cost of manufacturing current was 33 per cent higher in the municipal than in the private plants.

The cost of distributing the current was 21 per cent higher in the municipal than in the private plants.

"The combined cost per k.w. hour for manufacturing and distributing the current were:

Municipal plants	2.611 cents
Private plants	2.024 cents
Excess for mun. plants	.587 cents

"The loss of current in its distribution was 31 per cent greater in the municipal than in the private plants.

"The cost per ton of coal was 7.5 per cent greater in the municipal than in the private plants.

"The municipal plants used 4.7 lbs. of coal per k.w. hour, while the private plants used only 4 lbs. of coal per k.w. hour. The consumption of coal was thus 17 per cent greater for municipal plants.

"The average cost of k.w. hour when all expenses except taxes, were included was 3.766 cents for municipal and 3.1444 cents for the private plants, an excess for the former of 20 per cent."

Figures presented for the last United States census show that the municipal plants produce 4 per cent of the electricity generated in the country, but employs 10 per cent of the labor and uses 10 per cent of the fuel used in generating electricity.

The average rate charged by municipally-owned electric light and power plants is more than twice as high as that of the privately-owned and publicly regulated electric light and power company systems. Ninety-eight per cent of the industries of the country receive their power from privately-owned and publicly-regulated electric light and power systems.

As a matter of fact the people in the United States are rapidly working toward government or political ownership. Customer ownership is distributing the ownership of the plants to the actual customers throughout the country. They become the owners, controllers and judges of their own property. The movement is democratic, just and fair, and has the greatest promise for future economic development to meet the growing needs of the country.

Community Retarded Under Public Ownership

The development of a community is retarded under municipal ownership of electric light and power for the following reasons:

The area to which electricity can be distributed is confined to the limits of the area of the municipality.

The development of the utility is held back through lack of funds and in consequence there is an inadequate supply of power for industries.

The debt upon the utilities must be considered as part of the general debt of the community, and if the borrowing powers of the municipality are controlled by its assessed value, as they usually are, then it is often difficult and sometimes impossible to get the necessary majority vote of the citizens for urgent capital expenditures upon the installation of new generating equipment and extension of the distribution system.

The management of a privately-owned utility can usually do in five minutes that which is necessary for the business-like development of his property, what a municipality through acrimonious political discussion would often take weeks or even months in which to make a decision. This results in disheartening the superintendents and employees of a utility, who usually can judge what is in the best interests of the property, and in consequence a general indifference is infused into their minds resulting in less efficient operation.

The committee on public ownership and operation of the National Association of Railroad and Utilities Commissioners, in presenting its tenth annual report before the convention of that association last October, stated:

"Private ownership and operation under public regulation is declared to be logical, just and equitable, and the best system for conducting the business of public utilities so as to enable them to render the maximum benefit to the public and to encourage to the fullest degree efficient and business-like operation of the utilities. Summing up the more salient basic principles enunciated in previous reports of this committee, and upon which the conclusions therein were based, we find it to be the concensus of opinion that private operation has made America pre-eminent in public utility service. This is due, no doubt, to the fact that there has been little governmental interference with legitimate private business. This is as it should be, and is absolutely essential for the proper protection of the citizen in his enjoyment of life, liberty and the pursuit of happiness. Truly 'That people which is best governed is least governed'."

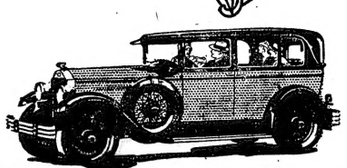
WHEN BETTER AUTOMOBILES ARE BUILT—McLAUGHLIN-BUICK WILL BUILD THEM



The Only Car with a Sealed Chassis —fully guarded against dirt, dust and moisture—and offering protected performance

IT is the fashion of the day to place first importance on motor car beauty; and for this the alluring beauty of McLaughlin-Buick's smart, low-swung bodies by Fisher is largely responsible.

But keep in mind that you get many things besides beauty when you buy a McLaughlin-Buick. You get unequalled riding ease—vibrationless performance—and above all the unique reliability of the world-famous McLaughlin-Buick Sealed Chassis and Triple-Sealed Engine.

Every vital part of the McLaughlin-Buick chassis is enclosed in dirt-proof, dust-proof, water-tight housings to assure reliability and long life.

And McLaughlin-Buick's proved Valve-in-Head Engine is fully guarded by crankcase ventilator, air cleaner, oil filter and gasoline strainer.

McLaughlin-Buick is the only car offering this twin feature as well as protected performance under all road and weather conditions.

Admire McLaughlin-Buick beauty—but insist upon McLaughlin-Buick dependability. It's a wonderful thing . . . even in these days when all cars are assumed to be dependable. M-5-6-28C

The G.M.A.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

CONDITION OF

(Continued from Page 1)

Only four points along the lines of the Canadian Pacific in Alberta report need of moisture, these confined to the southern districts. All grains looking well and growing rapidly. Wheat averages from five to six inches. A few patches have been reseeded on account of high winds, earlier in the season, but taken as a whole the outlook is very promising. Stand is strong and healthy throughout the province. Pastures good with cattle and range stock thriving. Hat and sugar beet crops coming along well.

Weather conditions in British Columbia are generally favorable and fruit further advanced in size than at this time last year. Prospects are for a big crop. Cherries and soft fruits are well formed and promise both quantity and quality. Apples have set very heavily. Blossom has fallen from all fruit tree and while there is big set of fruit, final result will not be determined until after June crop.

Winnipeg, June 7.—The wheat crop of the current year is greatly in excess of the estimates made last fall according to figures given out this morning by E. D. Cottrell, superintendent of transportation for the Canadian Pacific Railway.

Up to the end of May there had been marketed on the Canadian Pacific railway 216,370,207 bushels, while the Canadian National reports 164,064,000 bushels, bringing the total of both lines up to 380,434,207 bushels. Allowing 45,000,000 bushels for feed, seed and grist mills brings the total accounted for up to date to 425,434,207 bushels and reports show that there are still between 15 and 20 million bushels in the hands of the farmers for marketing.

THIRD FORTNIGHTLY CROP REPORT

(Issued by Department of Agriculture, Goverment of Alberta, Edmonton, June 9, 1928).

Crops throughout the province have been greatly benefitted by rains which have fallen over a large area during the past week, according to telegraphic reports received on Friday by the Department of Agriculture. While the situation had not generally become acute, rains were urgently needed in a number of districts in the Province and the recent precipitation has removed the cause for anxiety from this source for some little time.

Soil drifting has been checked in the southern part of the province where some damage of this kind had occurred and late-sown grain is germinating much more uniformly with the additional moisture in the soil. Early crops are now covering the ground in many districts and will make the best use of the soil moisture. Alfalfa on irrigated land is reported to be doing exceptionally well. Fall wheat and fall rye are in head in the south, but the yield will be reduced in a number of districts as a result of the dry period.

In the central and northern sections of the province all crops on summerfallow have made good growth, but those on fall and spring plowing are somewhat patchy in a number of cases. Seeding of coarse grains is practically completed with the exception of green feed. Following the recent rains additional acreage is being seeded to oats and barley on land which would have been fallowed if the dry weather had continued, and there is every indication that the total acreage in crop in the province will show an increase over that of 1927 in spite of the small amount of plowing done.

Crops in the Peace River district have made rapid growth and are showing good promise. An increase of from 12 to 15 per cent. in crop acreage is reported this year in the north, largely owing to the amount of new land cleared and brought under cultivation. Wireworms are doing considerable damage in some sections of the Peace River, but losses are reported to be no heavier on the average than in previous years. Tree growth has suffered heavily from the attacks of caterpillars in some districts east and south of Edmonton. Pastures which were in need of rain are showing new growth and livestock is generally in good condition.

INTERNATIONAL WHEAT POOL BROADENED TO INCLUDE CUSTOMERS

Regina, Sask., June 8.—When the third annual international wheat pool conference closed last night no suggestion of a plan for a world organization with a single board to direct flow, prices, and destination of all co-operatively controlled wheat was on the records. As near as the three days' sessions went toward putting anything resembling that departure in the picture were remarks of various speakers from various countries at different stages that it was the logic of the international pool program. The gesture ended in words. No resolution even remotely forecasting such a view went before the committee of resolutions.

But a departure of almost equally radical importance was taken. It was embodied in a resolution unanimously adopted broadening the scope of the world pool to include all co-operative wholesale consumers' organizations. This means the two extremes of the merchandising co-ordination of producer and consumer will meet in the world pool conference in future. But there may not be a conference next year. This was forecast in the discussion as to how the next world pool conference could include the consumers' organization.

Equally as important as forecasting closer relations of national co-operative bodies of consumers and producers was the decision developed in favor of establishing a dominion-wide wholesale co-operative society of consumers in Canada. No resolution was adopted because this a purely a national affair, but it was the sense of the Canadian pool delegates that this step forward be taken. It will not be under the management of the consolidated wheat pool but an entirely separate organization with sympathetic aid from the present organization.

In his final words adjourning the conference Chairman Burnell declared this meeting to have been the most significant in the history of world agrarianism, with the spirit of co-operative effort between producer and consumer at high tide throughout the six countries which sent representatives. This statement elicited cheers and unanimous approval.

With this exception no definite step was recorded by the world wheat pool in further pressing its merchandising advantage. Any future world conference, however, will be known as a world conference of co-operative producers and consumers.

GOVERNMENT CRITICISED BY MEMBERS

Ottawa, June 1.—Debate on the cancellation of the radio broadcasting license of the International Bible Students' Association was launched in the House of Commons Thursday afternoon. Discussion arose on an item of $190,000 to provide for the general improvement of reception conditions to licensed broadcast listeners.

"The action taken by the minister in this matter has the appearance of being arbitrary and should not have been taken in the absence of some well-defined policy and fixed regulations governing the issue of licenses to such organizations or persons," Hon. H. H. Stevens, Conservative, Vancouver Centre, declared.

J. S. Woodsworth, Labor, Winnipeg North Centre, voiced his protest. In the first instance, Mr. Woodsworth stated, he wished to point out that the department had cancelled the license of the Universal Radio of Canada which organization had secured a broadcasting license in January, 1926, and was allotted call letters "CJYC". While this body was closely associated with the International Bible Students' Association, it was "a distinct and commercial organization." The organization had expended $50,000 on its broadcasting station. Mr. Woodsworth questioned why the Universal Radio of Canada should be "penalized" on any complaint against the International Bible Students' Association. The majority of complaints appeared to have come from the city of Toronto according to the correspondence tabled, Mr. Woodworth stated.

The Saskatoon listener-in had complained that the association's program occupied too much time and interfered with dance programs. This complaint, Mr. Woodsworth stated, was a question of adjustment between people desirous of using the air. An Edmonton listener, he proceeded, had complained of inability to hear the returns from the Dempsey-Tunney fight.

Mr. Woodsworth asked when it had been considered right to say that some people were to be silenced because other people did not agree with them. If this policy was to be adopted, newspapers in Canada might be suppressed. Why should not the Orange Sentinel be suppressed if the Bible Students were to be silenced on this ground. The same thing applied to certain Catholic publications.

Mr. Woodsworth submitted that what the department should do was to regulate the length of time that the Bible Students should have on the air. But the government should not censure them nor suppress them.

EDBERG BANK BANDIT DREW FOURTEEN-YEAR TERM

Fourteen years' imprisonment was the sentence imposed by Mr. Justice Tweedie on A. E. Bethune alias Ed. Morrison and a half dozen other names who pleaded guilty in the supreme criminal court on Thursday morning to breaking into the Edberg branch of the Imperial Bank during the early morning hours of May 19 and attempting to blow the safe. In addition, Bethune admitted shooting several times out of the bank window for the purpose of holding back citizens, who were firing at the building, until he had time to complete the blowing of the cash compartment of the safe.

In sentencing Bethune, hardened jail-bird with numerous convictions against him, Mr. Justice Tweedie pointed out that 14 years was the maximum sentence provided by the law.

"If I had the power I would give you more," his lordship declared.

Among the witnesses called by the crown were Mark Cook, manager of the Edberg bank; Neville Whittaker, clerk in the bank; Constable Lees of the A.P.P., who arrested McDermott in a field near Edberg after the car in which they had made their escape from the town was stuck in a mud hole, and Arthur S. Rosenroll, manager of the Ferintosh bank, who assisted in the hunt for the robbers.

W. H. Odell, K.C., crown prosecutor for the judicial district of Wetaskiwin, assisted E. B. Cogswell, K.C., in the prosecution.

"I had such a funny sinking feeling when Jack tried to kiss me."

"Hadn't you ever been kissed before?"

"Not by a submarine sailor."

covery that we have an intellectual and thoughtful community in our midst and a city to be proud of.

The Library will be open from now on at the following hours: Tuesdays and Thursdays, 4 to 5 p.m.; Saturdays 3 to 5 and 7 to 9 p.m.

A charge of 25c is made for membership cards to cover cost of stationery and as all who are working for the Library are giving their time and efforts gratuitously the readers are asked to kindly assist in every way they can by returning books on time and when turning over books in the Library to keep them in order by replacing all books under the author's name and back in the proper section.

A further donation of 18 books was made by Mrs. Wallace since last list published. Two copies of the Girl's Own Annual were received from Miss Lauretta Vickers and Mrs. M. A. Doupe presented a book entitled "The Silver Cross" at the opening on Saturday.

CONFERENCE ON WEEDS

The Department of Agriculture has arranged to hold a conference on "Weeds" in the University of Alberta, Edmonton, on July 6th and 7th.

A hearty invitation is extended by the Department to all residents of the Municipal District of Montgomery to attend this conference.

Should it be more convenient to any person, a similar conference is being held at Olds on June 19th and 20th.

SPORTING NEWS

Garrison Finish Results in a Win Over New Norway

Four Runs in Ninth Frame Yield Locals a One-Run Margin Over League Leaders, 5-4

Never bet on an election, a horse race or a baseball game is the advice of many a sage, and the uncertainties of life were borne out to a marked degree at the local ball yards on Tuesday evening. It was the hour at which Bed-time Stories are in order. The league-leading New Norway gang had amassed a total of four counters in their nine turns at the swat station, while the Wets had but once successfully dusted the platter. The shades of night were falling fast, but what did that matter to the double-en invaders, with the game apparently nicely tucked away under their belts. But they had not reckoned with the uncertainties of destiny and when the smoke had cleared away after the antlered crew had made their final effort, the score board read 5 to 4 in favor of Wetaskiwin.

It was a somewhat surprising and therefore all the more pleasing climax to the large crowd of local fans and fanettes, and baseball thereby made progress in this man's town, which augurs well for future support of the local clan.

Rodvick chucked over a nice brand of ball for the homesters until three clean singles in the eighth chapter drove him from the mound and Hodgson held the visitors at bay for the balance of the fray, getting credit for the win; but, nevertheless, Rodvick was much in the limelight offensively, crashing out half of the quartette of hits and scoring two of the five runs chalked up by the victors.

An error at third on Recknagle's grounder, followed by free transportation to Lindskog perked up the hopes of the spectators at the opening of the last half of the ninth. Then Rodvick, after somewhat exasperating his colleagues by plunging after a couple of wide ones, smacked the old apple into the right pasture, Recknagle romping over for a score. With Lindskog around to third on the play, Rodvick ambled to the middle station. Craig grounded sharply to third and Ross held the ball to hold the prancing drug dispenser back, then pegging to first too late to get Craig. Like a flash Lindskog went for the pan for another tally. Svenson breezed on three good ones, and the crowd was looking to Ryan to break up the show. The best he could do was to pound one to the mound, but the visiting hurler instead of protecting the home plate, chose to make a killing at the first corner. But he held the pill too long in working the prancing Rodvick back to the red light corner and Ryan was safe, Rodvick scoring on the play. That tied up the count, one hand gone and two runners on the pillows. Godin smashed one to Olstead, who threw him out, but while this was going on Craig raced home with the winning tally and the fracas was over.

Four runs on one hit, one error, a walk and three fielders choices was a circumstance somewhat unique in baseball lore. Taken all in all, therefore, a very pleasant time was had.

The visitors scored in the second innings on Hodges' Texas leguer over short, a steal and Downing's single over third. In the third they chalked up a pair of counters on singles by Murray and Olstead and Ross' crash to deep left. The locals counted one in this frame on Rodvick's drive over the centre cushion, Craig's grounder to first, Lundell's grounder to first and a wild heave by hurler Olstead. The score sheet was blank from then on until the eighth, when the visitors made their fourth count. Olstead doubled, Ross grounded safely between hort and third, Olstead scoring. Hodson then replaced Rodvick. Yates flew to left and Carr and Malmo whiffed. The rest of the story has already been told.

Dug Up From the Dug-out

As our Millet scribe says, "Did you ever stop to think"—had the bases been full in the ninth instead of runners on second and third, the locals would have probably been on the short end of the score, as Craig, Ryan and Godin all grounded to the infield and forced plays would have been in order at the home plate.

The recent rains have packed down the playing field and Tuesday night the diamond was much improved. When the hardening-out process is complete, it will be a first-class battle ground.

It seems a pity that the matter of securing a thoroughly competent umpire cannot be arranged for. On Tuesday Merner very reluctantly yielded to pressure to fill in the gap, and bouquets instead of brickbats were what he deserved. The game was unnecessarily delayed and somebody apparently had to be the "goat." It was commendable on Merner's part that he consented to sacrifice on the altar of censure.

On account of the Carnival week in Ponoka, arrangements have been made to on Friday at Ponoka, play the game scheduled to take place here on Thursday.

Standing in the League

	Won	Lost	P.C.
Wetaskiwin	2	1	.667
Ponoka	2	1	.667
New Norway	2	2	.500
Bashaw	0	2	.000

Clerks Have Lost None of Their Winning Ways in the Softball Circuit

The Queen of Sheba had winning ways—so have the Clerks of the local Soft Ball League, but running in a different vein. The latest scalp to find a dangling place on the belts of the counter hoppers is that of the High B aggregation, which until Monday night had met with but two reverses during the season's play. While the Clerks kept untarnished their record of successive wins, the proverbial "horse shoe" was considerably in evidence in their 7 to 6 victory. The Bees displayed a stellar brand defensively, but were somewhat weak with the willow; and, though they on divers occasions plugged the stations, the Clerks by double killings and other devices held down their scoring proclivities. On the other hand, daring base running and timely clouting edged out a win by the narrowest of margins. Merner and Brickman worked on the mound for the winners and losers respectively.

On the other field of combat the Bankers tacked up a win by a score of 20 to 11 over the High A team, French and Paton being the twirlers.

Tonight's games are: Elks vs. Creamery and Moose vs. Kiwanis. Next Monday the games are Creamery vs. High B and Moose vs. Bankers.

The standing:

	Won	Lost	Pct.
Clerks	5	0	1000
Bankers	3	1	.750
High B	3	3	.500
Moose	2½	2	.500
High A	2	3	.400
Creamery	2	3	.400
Kiwanis	2	3	.400
Elks	1	5	.167

In an exhibition game last Thursday Railway Street West was defeated by Pearce Street and there was excitement aplenty throughout. Van Alstyne and Herb Schmidt were the battery for the losers, French and Butler performing similar duties for the winners.

Golf Notes

Due to unfavorable weather conditions, the Golf Club members were not able to accept the invitation extended by Camrose to play an inter-club match with them last week-end. Weather permitting, arrangements have now been made to accept their invitation next Sunday, play commencing at 1:30 p.m. We hope there will be a good turn-out. All those able to go are requested to notify either Mr. Taylor, Mr. Baker, Mr. R. Schmitz, or Mr. Prest. Members having cars are requested to bring those who have none. Arrangements will be made by the above committee where necessary, for those wishing to go who have not been able to arrange for transportation.

We would like to see a good turnout, as the Camrose course is in good shape and a good time is assured.

* * *

Last Thursday Mr. Gourlay, the Camrose Pro., came to Wetaskiwin to give lessons to a number of the local members who want to improve their game. His time was fully occupied instructing many potential champions. He has had so many requests for lessons from local members that he has found it necessary to arrange to come twice a week in future; on Thursdays and Saturdays. Now is the time to take advantage of the services of an expert teacher, who can correct your faults and improve your game.

* * *

On the afternoon of June 3rd, thirty ladies and gentlemen of the local golf club visited Wetaskiwin for the first half of a home and home match play tournament. All the games were keenly contested but the result was overwhelming in favor of the home club, Wetaskiwin winning the tournament 21 to 7½.

The Camrose ladies, however, did themselves great credit by triumphing over those of the winning club by a close margin of half a point, winning their part of the tournament 4½ to 4.

The hospitality extended by the Wetaskiwin club was cordial and of the first order. In no less degree of excellence was the manner in which their officers handled the tournament. A strenuous effort to equal the fine treatment they received will be made by the local players in the return games, to be played June 10.

The weather during the tournament was fair although the second nine of the eighteen holes was played in frequent heavy showers of rain. Many of the Camrose people found great difficulty in returning home by car, after the day had drawn to its successful (but locally disastrous, close). Special recognition is made of the work of A. Tomkins, whose constant efforts on behalf of the Camrose club in the arranging of opponents and other necessary work of management resulted in a minimum of confusion and delay.—Canadian.

MEASLES AT EDMONTON

Edmonton may expect to be in the throes of an epidemic of measles soon, according to the Edmonton medical health officer. Thirty cases are now registered and the officer states that the cycle of measles is due in the northern city in 1928.

THE BANKRUPTCY ACT

In the Matter of the Estate of John A. Hay, Authorized Assignor

Notice is hereby given that JOHN A. Hay, formerly carrying on business at the City of Wetaskiwin, in the Province of Alberta, under the name and style of "J. A. Hay Company," Plumbers and Tinsmiths, now of New Westminster, in the Province of British Columbia, did on the 4th day of June, 1928, make an Authorized Assignment of all his property for the benefit of all his creditors and that Richard P. Wallace, Official Receiver, has appointed us to be Custodian of the Estate of the Debtor until the first meeting of creditors.

Notice is further given that the first meeting of creditors of the above Estate will be held at the Office of the Official Receiver, in the Court House, Edmonton, Alberta, on Friday, the 22nd day of June, 1928, at four o'clock in the afternoon.

To entitle you to vote thereat proof of your claim must be filed with us before the meeting is held.

Proxies to be used at the meeting must be lodged with us prior thereto.

And Further Take Notice that if you have any claim against the debtor for which you are entitled to rank, proof of such claim must be filed with us or with the Trustee when appointed; otherwise the proceeds of the debtor's estate will be distributed among the parties entitled thereto without regard to your claim.

Dated at Edmonton, Alberta, this 9th day of June, A.D. 1928.

U.F.A. Baseball League Has Been Reorganized With Four Contenders

Representatives from Angus Ridge, Gwynne, Hobbema and the Moose Lodge met in the U.F.A. Hall, Wetaskiwin on Saturday evening, June 9th and organized a U.F.A. Baseball League for the Wetaskiwin District. Practically the same rules and regulations as were in effect last year were adopted. The Angus Ridge delegates, who are now in possession of the cup, very generously proposed to delete one of the regulations which read, "That the winner for two years in succession would own the cup." This was agreed to unanimously and from now on the cup will be up each year as a trophy.

The executive appointed were: R. M. Snyder, N. MacEachern and A. P. Moan.

The schedule of games for the season is:

June 9—Gwynne at Wetaskwin; Hobbema at Angus Ridge.

June 16—Angus Ridge at Gwynne; Wetaskiwin at Hobbema.

June 23—Hobbema at Wetaskiwin; Gwynne at Angus Ridge.

June 30—Wetaskiwin at Gwynne; Angus Ridge at Hobbema.

July 7—Angus Ridge at Wetaskiwin; Gwynne at Hobbema.

July 14—Wetaskiwin at Angus Ridge; Hobbema at Gwynne.

WETASKIWIN BOWLERS DEFEAT EDMONTON VISITORS

Several rinks from the C.P.R. Bowling Club, Edmonton, came down on Saturday last for friendly games with the Wetaskiwin club. The local ladies showed their prowess by winning from their opponents by a small score in the aggregate, while J. S. Watson and W. English won their contests by large margins, but G. L. Gothard lost by two points. A very enjoyable time was spent, and it is expected that a return game will be played shortly.

ONE MILLION PICKEREL FRY FOR SYLVAN LAKE

Mr. E. S. Hogg, president of the Red Deer Fish and Game Association, reports that they have received word that one million pickerel fry are on their way here from Regina for Sylvan Lake. They will arrive here on Friday evening, and the Fish and Game Association are looking for trucks to get the pickerel to the Lake.—Red Deer Advocate.

Farm Lands For Sale

There will be offered for sale by public auction at the Auction Rooms of Arthur P. Mitchell at Millet, at 2 p.m. on

SATURDAY, the 16th day of JUNE 1928

Legal Subdivision 11, East half of Legal Subdivision 12, South East quarter of Legal Subdivision 13, and South half and North East quarter of Legal Subdivision 14, of Section 2, Township 49, Range 23, West of the 4th Meridian, containing 100 acres more or less, reserving mines and minerals.

The property contains approximately 14 acres broken and cultivated, 80 acres when cleared fit for cultivation, and 4 acres hay-meadow.

Of the said land 1½ miles are fenced with 3 wires.

The property is 7 miles from the village of Hay Lakes, and 2 miles from the nearest school.

All taxes are paid up to and including the 31st December 1927.

The property will be offered at the upset price of $1100.00.

The purchaser is to pay 10 per cent of the purchase price to the vendor or her solicitor at the time of sale, and the balance within 60 days into Court.

In all other respects the terms and conditions of sale will be the standing conditions of The Supreme Court of Alberta.

Further particulars can be obtained from E. D. H. Wilkins of Wetaskiwin, Alberta, Solicitor for the Vendor, or from the Auctioneer.

Dated at Wetaskiwin, Alberta, this 22nd day of May, 1928.

J. I. POOLE,
Clerk of the Court.

Approved as to form
Wm. A. D. Lees,
L.J.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of CHRISTOFER FRIDOLF BRODIN, late of the Post Office of Bittern Lake, in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the Estate of the above-named Christofer Fridolf Brodin, who died on the 20th of April A.D. 1927, are required to file with Jonas Peter Johnson, of the City of Wetaskiwin, in the Province of Alberta, Executor, or with the undersigned Solicitors by the 16th day of July, A.D. 1928, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed, or which have been brought to his knowledge.

Dated this 28th day of May, A.D. 1928.

ODELL & RUSSELL,
Solicitors for the Executor, Wetaskiwin, Alberta. 11-3tn

NOTICE OF SALE OF IMPOUNDED ANIMALS

Under the Domestic Animals Act (Municipalities)

To whom it may concern:

Notice is hereby given that by virtue of power granted under Section 44 of The Domestic Animals Act (Municipalities) and of By-Law No. 459 of the Municipality of Bigstone,

An Old Timer

The oldest stocks of Whiskey in Canada. The Government Strip tells the story

THE above illustration is from an actual photograph of an original keg in which the celebrated "Seagram's 83" was first stored for ageing—and still in possession of Joseph E. Seagram & Sons Limited, Waterloo, Ont. All Seagram's Whiskey is aged in individual oak casks, and the year of manufacture is guaranteed by the Dominion Government's seal over the capsule of each bottle.

Our Ottawa Letter

(By Wm. Irvine, M.P.)

The session is speedily coming to a close. The desire is general to finish by Saturday night the 9th of June, and when all members get a desire of that kind the session is pretty sure to end on scheduled time. Of course it is still possible that developments may take place which might well extend the session for another week. While I write, Mr. Cahan of Montreal, is about to move an amendment to the Motion of Concurrence in the report of the Committee on Immigration. That committee has been investigating the whole situation in respect to immigration including charges of graft in connection with the issuing of permits. Mr. Cahan has just stated that while he has absolute faith in the honesty and integrity of the Minister of Immigration he considers that Mr. Forke in his lack of training in business matters has not the experience and ability to hold the important position he now occupies.

Of course, Mr. Cahan, like most other business men, regards immigration, especially of farmer immigrants, as the very back bone of prosperity. This is a strange delusion which I shall not here try to explain, beyond remarking that it is born of class selfishness. The more farmers there are, the larger will be the production of national wealth, and if the commercial and progressive classes can be restricted in numbers, the greater a portion of the increased national wealth will be theirs. It is safe to say that if the Government were to advocate that henceforth only business and professional people would be admitted into Canada, parliament would at once take steps to stop all immigration whatsoever. Farmers throughout the Dominion are beginning to protest against the importation of only one class. The fact that increased production in farm produce will have the same effect on the prices of farm commodities as an increase of manufacturing would have on the price of machinery is beginning to be realized.

The step taken by the Government to prevent speculation in real estate at the new port of Churchill is worthy of notice. On the advice of Mr. Dunning the Government expropriated all privately owned land within the vicinity of the proposed town site. For the time being this action has made speculation in lots impossible. However, the Minister has not yet decided what his next step shall be. The situation affords a good opportunity for an experiment along the lines of single tax. The Minister stated when questioned on his intention that he would not permit the selling of any land for the present and he invited suggestions as to what policy should be followed, ultimately.

Miss McPhail made her annual attack against cadet training when the estimate providing a $500,000 grant for that purpose was brought down. She moved that the amount be reduced by $400,000. She argued that cadet training tended to instil and cultivate the military spirit in the young. She pleaded that the Government should keep its hands off the schools in pursuing its military program, and argued that the effect of military discipline on the young mind was the most objectionable phase of the present policy. Military discipline, she contended, crushed the impulse to creative thought and initiative in action. Her motion was defeated.

All private bills of a non-contentious character were passed and cleared from the Order Paper on Monday night. Mr. Kennedy's bill for the building of a branch railway line on the E.D. and B.C. was included. The Sun Life Bill and the Bell Telephone Bill remain to be dealt with. Those of us who have opposed these bills have decided to permit them to come to a vote. We do not regard it as a sound parliamentary principle that any bill should be talked out and parliament refused the opportunity to vote upon it. We have drawn the attention of parliament and the country at large to what we regard as piratical privileges in these measures. Now, if the Members of Parliament desire to accept responsibility for the enactment of such laws a small minority can hardly justify itself in preventing them by obstructionist tactics.

As this will be my last weekly letter of the session it sincerely thank the editor of this paper for his courtesy.

The cool, comforting flavor of WRIGLEY'S Spearmint is a lasting pleasure.

It cleanses the mouth after eating—gives a clean taste and sweet breath.

It is refreshing and digestion aiding.

STUDEBAKER CORPORATION WILL BE GREATLY INCREASED

Walkerville, Ont., June 9 (Special). With the announcement of a far-reaching reorganization of both administrative and manufacturing policies, the Studebaker Corporation of Canada, Ltd., today assumed a front rank position among the Dominion's largest independent manufacturers. The announcement, which indicates a friendly divorcement of the Canadian Studebaker organization from the Studebaker Corporation of America, was issued by A. R. Erskine, president of both industrials.

The announcement met unusual interest in Canadian financial centers today. The new policies outlined indicate that Studebaker's demands upon Canadian raw materials and labor will be greatly increased. Greater values in Studebaker built automobiles and greatly increased exportation of Studebaker and Erskine cars is also forecast.

The new Studebaker organization will be directed by D. R. Grossman, formerly sales manager for Studebaker in the Dominion. Mr. Grossman's title will be vice-president and general manager. Having been associated with Studebaker in Canada for the past six years, Mr. Grossman is well known to the Dominion's automotive leaders.

"The motive behind the reorganization is to be found in our desire to build Canadian automobiles for Canadians," says the statement. "The Studebaker Corporation of Canada, Ltd. is Canadian. We will use more and more of Canada's great supplies of raw materials. Not only will our consumption of these commodities be increased, but new commodities will be added to our purchasing agent's order lists. We want to build automobiles for Canada and we want Canadians to approve of them. It is felt that the time has come to go ahead and no time will be lost in increasing the number of cars actually built in Canada. We hope to secure greater efficiency that has been possible in the past, which will result in greater automobile values for Canadian purchasers.

"The new arrangement will mean a gradual increase in the number of employees at the Walkerville plant. Branches are now maintained at Montreal and Calgary. These will also be greatly increased.

"This move is a result of Studebaker's faith in Canada," said Mr. Grossman today. "We believe there will be wonderful developments in this country and through this expansion program, we will naturally become a part of those developments."

Health Officials to Hold Convention

The anual convention of the Alberta Hospital Association, the Alberta Registered Nurses' Association and the Alberta Public Health Officials' Association will be held in Calgary on Monday and Tuesday, June 25 and 26. An interesting program of value to all those engaged in hospital and public health work is being arranged, and among the speakers who will be heard are a number of outstanding authorities on problems of public health.

Alberta Dairy Commissioner to Attend World's Congress

Alberta will be represented at the World's Dairy Congress which opens in London, England, on June 25, by Dr. C. P. Marker, Dairy Commissioner for the Province. Dr. Marker is acknowledged to be one of the outstanding authorities in dairy work on the continent and his efforts have been largely responsible for the high position secured and held by Alberta dairy products in both domestic and export markets. His assistance to Danish people in western Canada was recognized some few years ago by his appointment as Danish vice-consul for Alberta and by having the title of Knight of Dannebrog conferred on him by the King of Denmark, and the University of Alberta in 1924 conferred on him the honorary degree of LL.D. in recognition of his services to the agricultural industry in the province.

Conduct Research in Wool Production

Under the direction of the National Research Council of Canada, a party including Prof. J. P. Sackville of the University of Alberta; Prof. A. M. Shaw of the University of Saskatchewan, and W. H. J. Tisdale, assistant manager of the Canadian Wool Growers' Association, has started a survey of sheep ranches in the three western provinces. A study is being undertaken of the advance made by ranchers in improving the quality of their wool clip by selective breeding and this field survey will be preliminary to a series of laboratory tests to determine the relation between breeding and the improvement of the fleece.

Good Prices Paid at Lacombe Bull Sale

Very satisfctory prices were secured by the contributors of the 56 animals disposed of at the Lacombe annual bull sale on June 1. The Aberdeen Angus sales averaged $125.76; the Herefords, $175.55, and the Shorthorns, $146.15, with a grand average of $145.

Increase Service on E.D. and B.C. Line

indicating the increased business in the Peace River country as a result of the heavy movement of new settlers into the north during the past few months, an augmented freight service is being established between Edmonton and Wembley, it is announced by the Provincial department of railways.

Test Value of Chemical Weed Destroyers

A series of tests to determine the value of two chemical preparations in the destruction of Canada Thistle, Sow Thistle and Quack Grass is being conducted at a number of points in the province under the direction of Field Crop Commissioner W. J. Stephen. The first of these, known as the Chipman Atlas Non-poisonous Weed Killer, is manufactured in the United States and the second is a preparation formulated by A. W. Wadden of Gainsford, Alberta. The first trials of the efficacy of these chemicals were made on a number of plots in the vicinity of Edmonton on June 8 and additional tests will be made at a number of points before any announcement is made as to their value.

ALBERTA PICKEREL SHIPPED TO STATES

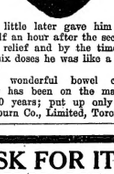
Four carloads of fresh, iced pickerel were shipped to United States markets during the first week of the commercial fishing season, according to a report forwarded to the local fisheries office by W. H. Bannister, fisheries overseer at Lesser Slave lake. The commercial season opened at this lake on May 15.

The total catch for the first week of all species, is given as follows: Pickerel, 59,108; jackfish, 5,800; perch, 4,109, and whitefish, 2,578 pounds.

The Times does commercial printing at right prices.

DIARRHŒA
Was So Bad
Child Passed Blood

Mrs. Harry Nesbitt, R. R. No. 2, Shannon, N.B., writes:—"Last Fall my little boy took very bad with diarrhœa and before I knew it he was passing blood. I went to our medicine case and gave him a dose of



and a little later gave him another, and half an hour after the second dose he got relief and by the time he had taken six doses he was like a different child."

This wonderful bowel complaint remedy has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

WHAT ARE YOU going to do with your 1928 Wool Clip?

It will pay you to ship it to us through your own local Wool Growers' Association.

LARGE AUDIENCE ATTENDS EXPRESSION RECITAL BY ALBERTA COLEGE PUPILS

First Presbyterian lecture hall, Edmonton, was packed to the doors and the audience overflowed into the rotunda on Friday evening when Mrs. Ethel Reese Burns, A.T.C.M., assisted by Mrs. Alice E. Lucas, presented the students of the expression department of Alberta College in a demonstration recital. The first part of the program consisted of a demonstration of physical expression, Eurythmics, by pupils of Mrs. Burns, and Harmonic, by pupils of Mrs. Lucas. Mrs. Burns spoke briefly explaining the idea behind the work, and the object which the department sought to attain. The demonstrations were graceful and interesting, every student on the alert and responding quickly.

Readings were then given by June Thompson, Alys C. Atkinson, Edith Kern, Charlotte Knowles,, Susie Cooper, Mrs. C. E. Stott, Medora Beckman, Rebecca Glockzin, Irene Van Camp, Gwen Christie, Mrs. Clara H. McPherson, Gwendolyn McEachern, Kathleen Mayhew, Florence Windsor, Marjorie Mills, Margaret Hegler and Elizabeth Runnals.

All pupils showed the result of painstaking work on the part of the pupils and careful training on the part of the teacher.

Dizzy Spells Shortness of Breath Was in Awful State

Mr. W. A. Smith, 343 Alexander St., Vancouver, B.C, writes:—"When I reached the age of 40, all kinds of ailments seemed to take a crack at me, all at the same time. I had dizzy spells, shortness of breath, and everything would turn black before my eyes. Doctors claimed it was kidney trouble. I went to a specialist and he said I was on the verge of a nervous breakdown; I truly was in an awful state.

"I took various kinds of medicine, but they did me absolutely no good, until, one day I met a friend who had been overseas and was in the habit of taking nervous spells, the result of his overseas service, and he told me to get

MILBURN'S HEART AND NERVE PILLS

and take them according to directions and I would feel the benefit after the first few doses. I did as he told me, and altogether I took six boxes, and they relieved me of my nervous condition. That was three years ago and my nerves, to-day, are in perfect shape."

Price 50c. per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ITEMS OF INTEREST

The British Air Ministry is reported to have purchased the plans of an Italian inventor for an aeroplane which can rise straight up from the ground.

The snowfall in the Arctic regions is less than that of the temperate countries because of the difference in the amount of moisture in the air.

The Right Hon. L. C. M. S. Amery says that he knows of no country where a man can become an independent farmer in a fewer number of years than in Western Canada.

Henry Ford, extolling prohibition, says in the Forum that there are a million boys who have never seen a saloon and who will never know the handicap of liquor either in themselves or their relatives.

It will be news to many that the Federal Government has no power to cancel the license of any brewery or distillery. The Hon. Mr. Euler recently introduced a bill to give the Government this power. It is surely time for it.

Volkswille, the newspaper organ of Trotsky, declares that eighty per cent. of the Soviet Administration in Russia are Jews, and it declares that it is President Stalin's intention to get rid of them all in order to propitiate foreign governments.

A new bell for the Baptist Temple in New York (Dr. H. E. Fosdick's church), has been cast in England at the Croydon foundry, and it weighs eighteen and a quarter tons, being the largest ever cast in England. It will be part of the carillon for the Baptist Temple.

New York City yearly pays retail $36,000,000 for apples. Every city which can get good apples can use more than it ever gets. It is good for the citizens and good for the growers who raise them that people should have an abundance of this, one of the finest of all fruits.

You would not be ashamed of your stationery if it had been printed at The Times office.

MILLET LOCAL NEWS

Mrs. S. C. Moen spent Monday in the city.

Mr. and Mrs. P. Fraser were Monday visitors to the city.

Mr. and Mrs. West and little Joyce Moen motored to the city on Friday.

Mrs. Ross King of Bonnie Glen, is visiting her sister, Mrs. Ed. Kinchella.

Miss Pierle was the guest of Mr. and Mrs. Harry Scott for tea on Tuesday evening.

Mrs. A. Dowler is visiting in Calgary at the home of her daughter, Mrs. McCracken.

Miss Harding and Miss Gwen Christie spent the week-end with Mr. and Mrs. J. B. Christie.

Miss Orel May Fisher of the Camrose Normal, was the guest of her uncle, Mr. Gordon Pettigrew, the past week-end.

Mr. and Mrs. C. E. Compton and their daughter, Miss Gladys, were guests at the home of Mr. and Mrs. West on Monday evening.

Mr. and Mrs. Van Alstyne of Calgary, who have been in Peace River, were guests of their daughter, Mrs. L. Wolf, during the past week, returning to their home on Monday.

Mr. C. A. Kent and family motoring between Edmonton and Millet on Friday, were in collision with another car, the occupants of both cars escaping injury, the cars being less fortunate.

With an attendance of twenty-eight at the Pipestone school on Sunday last, June 10th, Rev. L. R. Macdonald organized a Sunday school and opened an appointment of the United Church of Millet. Services will be held on alternate Sundays.

On Tuesday evening a reception was held in Pinyon's hall when friends and neighbors to the number of two hundred met to honor and extend best wishes to Mr. and Mrs. Ted Moonen, whose marriage was solemnized in St. Norbert's church earlier in the day. The evening was spent in dancing and conversation. Very many beautiful and useful gifts evidenced the esteem in which Mr. and Mrs. Moonen are held.

HILLSIDE U.F.A. NEWS

The monthly meeting of the Local was held at the home of E. R. Hoskins on Friday, June 8, with a large attendance of members and visitors.

Arrangements were completed for the annual picnic, which will be held on the school grounds on Saturday, June 16.

Delegates were elected to the annual convention of the Federal Constituency Association, which will be held in Wetaskiwin June 21st. Several resolutions for this meeting to deal with were passed after discussion.

A letter from Wm. Irvine, M.P., was read and discussed, and after a hearty supper, the meeting adjourned. The next meeting will be held at Jas. Harvey's in July.

THE U.F.A. SONNET

(From the Roof of the New Pool Elevator at Millet)

Pool your thought and pool your grain,
Pool and stand together;
Single effort all in vain
Cannot mend the matter.

Weeds are growing, mind your land,
Hail, rust, frost and blowing.
Worse than all—the middleman
Gets you coming, going.

Forward all! participate—
Never end your schooling;
Life is short, don't hesitate,
Join, and stop your fooling.

—T. K. Rogne.

DIFFERENT DESTINATIONS

A group of workmen were discussing the evolution and origin of man. One of the party remained silent, when a companion turned to him and demanded his opinion.

"I ain't goin' to say," he replied doggedly. "I remember as 'ow Henry Green and me threshed that out once before, and it's settled as far as I am concerned."

"But what conclusion did you come to?"

The other swallowed a couple of mouthfuls and leaned back with a sigh of content.

"Well," he said slowly, "we didn't arrive at the same conclusion; no, we didn't. Henry, he arrived at the hospital, an' me at the police-station.

CANADA'S FUTURE

That the time was coming when Canada, like the United States, would have the problem of how to keep the people out instead of how to get them in was the statement of Premier J. E. Brownlee at the second annua buffalo feast of the Edmonton branch of the Native Sons of Canada at Edmonton, Thursday night.

THINK IT OVER !

Some men spend their time looking for stars; others look for mud-holes. Both find what they seek.

Weddings

MULLEN—RUPERT

The marriage of Chas. Mullen of Detroit, Mich., youngest son of Mr. J. Mullen of Millet, to Verna Rupert, daughter of Mr. and Mrs. A. D. Rupert od Millet, was solemnized at the Millet United church parsonage by Rev. Macdonald, on June 6th

The bride wore a beautiful gown of nile green georgette adorned with beads and fringe, and was attended by Miss Marjorie Mullen, only sister of the groom. The groom was supported by Mr. George Rupert, brother of the bride.

The bridegroom's gift to the bride was a beautiful bar pin of white gold set with a diamond. Suitable gifts were presented to the bridesmaid and best man.

The bridal party returned to the home of the bride's parents, where a buffet luncheon was served.

Among those present were Mr. and Mrs. A. D. Rupert, Mr. and Mrs. L. M. Rupert and Marguerite, Mr. and Mrs. E. Shale and family, Miss Marjorie Mullen, Mr. Ted Mullen and Miss Kathleen of Edmonton, Miss Esther Rupert, Messrs. Dock Rupert, Harry Wagstaff, George Rupert, Pat Mullen, Norman Rupert and Edgar Rupert.

MILLET DISTRICT CAMP

The Millet district camp will be held at Pigeon Lake, July 12th to 20th, for girl 12 years and over. The cost will be $5.50, of which 50c is registration.

Here and There

(79)

The Rocky Mountain Lakes fishing season was opened recently with a catch of a thirty-two pound lake trout by George Andrews of Banff, in Lake Minnewanka. A number of others of not such a great weight were caught by guests of the Banff Springs Hotel.

The month of April was the most successful so far this year from the standpoint of families settled, according to a statement issued by the Canada Colonization Association. During the month 81 families were settled throughout the Dominion on 19,249 acres of land, bringing the total of settlements from the first of the year up to 224 on 46,207 acres.

There are in Alberta today 77,192 farmers who have 834,324 horses in use and 10,225 tractors. In Saskatchewan records show 116,762 farmers with 1,199,566 horses and 24,367 tractors. Manitoba has 51,200 farmers with 356,480 horses and 10,833 tractors. The survey would indicate that while the horse is yet far from being a back number on Western Canadian farms, the day of the tractor has definitely arrived.

Miss Jean Cameron, who came to her parents from England at the age of four, at ten commenced trapping in the district of her father's homestead. Today, at the age of 21, she finds it quite a lucrative and congenial pursuit, and quite superior to any occupation which would keep her in the city. She follows a trap line within a ten mile radius of her house and her catch includes coyote, lynx, weazel and fox.

A record passage by a freighter and one that has only been expected of a passenger ship was recently accomplished when the Canadian Pacific Cargo steamship Beaverburn docked at the Surrey Commercial Docks, London, nine days after leaving Montreal. The trip was the first out of Montreal of one of the new "Beaver" vessels and this record will be clipped by from twelve to fifteen hours now that the Beaverburn and vessels of her class are routed via the Straits of Belle Isle.

Seed growing is one of the latest industries of Vancouver Island of steadily increasing importance. Vancouver Island sweet pea seed sells on the English market from three to four shillings per pound more than the California seed. The largest sweet pea seed farm is at Duncan, which produces yearly about two tons. From 15 to 20 women are employed each year to pick, clean and pack the seed, the excellence and high quality of which is becoming world-famous.

All the sport of fishing with a minimum of destruction of fish was realized recently when a party of four members of the Izaak Walton League of American enjoyed a fortnight's salmon fishing on the Cains River, New Brunswick. The party took 150 salmon and returned them all to the water except twelve. The fish ranged from 25 pounds to an average of fifteen lbs and were taken with barbless hooks and streamer flies. Very fine sport was enjoyed but the fish were in no way injured when returned to their native stream.

Cook's Regulating Compound

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor)

MILLET LOCAL NEWS

Mr. and Mrs. Mullen are motoring to Dotroit, where they will reside.

One member of our ball team is bearing the marks of the Ponoka game.

Mr. and Mrs. Fred Stanley have moved into an apartment at the home of Mrs. H. Brinker.

Mr. and Mrs. S. Scott have moved into the house recently occupied by Mr. and Mrs. Stanley.

Mr. J. R. K. Graham is spending the week at Viking, the guest of Mr. and Mrs. W. L. Campbell.

Esther Meyers returned Friday from Edmonton, where she has been taking her music exams. at Alberta College.

Should you see caterpillar tents on your farms or roadsides, preparing trouble for you next season—destroy them.

Mr. George Rupert accompanied his sister and her husband, Mr. and Mrs. Charles Mullen, on their return journey by motor to Detroit.

Miss Irene Kent, a pupil of Miss McVey, A.T.C.M., was in Edmonton on Friday at Alberta College, for her primary examination in music.

Mrs. J. B. Christie attended the recital in the School of Expression, Alberta College, on Friday evening last, returning to Millet on Saturday.

The Ladies' Aid of the United Church will hold a sock social on June 22nd, at the home of Mrs. J. O. Anderson. See further announcements.

The Ladies' Aid of the United church, Millet, met at the home of Mrs. Christie on Thursday last for the June meeting. The usual routine business was carried out and a pleasant social hour was spent with delicious refreshments served by the hostess.

The Ladies' Aid of the Wetaskiwin United church were hostesses to the sister organization of Millet on Wednesday last in the parlor of the Wetaskiwin church. A very fine program of music, reading and other items of interest was presented, which with the very delicious repast served at the close, was greatly enjoyed by all. Those present from Millet were Mesdames Wright, Macdonald, Kent, West, Moffett, Fraser and Miss Fanson. At a future date the Wetaskiwin ladies are to be the guests of the Millet Ladies' Aid.

PASTE THIS WHERE YOU CAN SEE IT IN YOUR AUTOMOBILE

The Philadelphia chamber of commerce has prepared a decalogue of safety as follows:

"Good intentions are a treacherous substitute for good brakes.

"The horn that is defective may yet prove very effective in plunging its owner into trouble.

"Beneath the skin, the man who neglects his steering gear is blood brother to the bridge jumper.

"There are many brands of danger, but only one kind of safety.

"A dark tail light is no protection against the car thundering along in the rear.

"Danger wings with lightning speed, for him who puts his trust in greed.

"All any bad brake asks is an opportunity to show what it cannot do in a critical situation.

"It's a poor time to think of brake inspection when one is within 10 feet of eternity.

"Hard luck takes many a wallop that belongs to faulty judgment.

"The nearest American approach to the French guillotine is the exposed edge of a broken window of windshield glass."

Australia is one of the richest countries in the world in minerals, in almost every part and of every kind.

DIES SUDDENLY

Calgary, June 8.—George H. Hutton superintendent of agricultural and animal husbandry for the department of natural resources of the Canadian Pacific railway, Calgary, died suddenly at noon yesterday twelve miles out of Anaconda, Montana, where he, in company with N. J. Christie, president of the Calgary exhibition and Prof. W. L. Carlyle, manager of the Prince of Wales ranch, was investigating the sheep industry. Heart failure is believed to be the cause of death.

WOMEN'S INSTITUTE NOTES

The next meeting of the Wetaskiwin Women's Institute will be held on Friday afternoon, June 22nd, at the home of Mrs. Robert Shaw, two miles east of the city. The members of the Angus Ridge Women's Institute have also been invited to be present. Mrs. Hugh Stewart will give a report of the Provincial Convention held recently in Calgary.

Anyone wishing to attend will please communicate with the Secretary, Mrs. A. H. Liversidge, or the President, Mrs. H. J. Montgomery.

There will be a Clinic for children of pre-school age held in the sitting room of the City Hospital on June 21, between the hours of ten in the morning and four in the afternoon. Dr. Jenkins and Miss Emerson, P.H.N. of the Dept. of Public Health, will be in charge. The clinic is free and it is hoped there will be a large attendance.

The Essay Contest held under the supervision of the committee on Canadianization and National Events has proven very successful. Forty-three essays were handed in and the judges Mrs. G. D. Wallace, Rev. A. L. Elliott and Mr. W. J. Loggie found it necessary to read the best over several times before making a decision. Number thirty-eight, Margery Montgomery, received first prize, a five dollar gold piece, and number thirteen, Fred Lord, second, a two and a half dollar gold piece. The committee in charge visit-day afternoon, where Mrs. John Arned the King Edward school on Tuesold, convener, made the presentation.

Coal mines are being worked in Rhodesia, near the Zambesi.

Neighborhood News

LONE RIDGE

The Lone Ridge U.F.A. are observing the annual U.F.A. Sunday in the Brightview Baptist church. A special program of music and addresses is being arranged.

CHESTERWOLD

The Government Health Clinic will be at the Chesterwold Hall on June 14, 15 and 16. Parents interested are requested to bring or send all children to be re-examined the first day. Operations will be performed the second day. We hope that all children will be there and full advantage taken of this opportunity.

GEO. FINK,
Secretary of Committee.

WINFIELD

Mr. I. O. Gibbons has purchased the old Fountain place. He is busy building and fencing.

A. McDougall of Rimbey, was a visitor at Winfield last Friday.

Mr. and Mrs. Tate are back at Winfield. They say it is hard to stay away.

Mr. Grouh, our village blacksmith, is back again. He has been putting in the crop on his farm at Iola.

At last we have the main street graded. The next item is sidewalks also a few hitching posts.

Mrs. Saben had a narrow escape last Sunday. She was driving a car over the Stone bridge at Knob Hill. Immediately after crossing the bridge a rabbit scurrying across the road from the brush, ran in front of the car. To avoid hitting the rabbit Mrs. Saben turned the car quickly to one side, which resulted in the car skidding down a 30 foot embankment. Apart from a few bruises and having to walk home, Mrs. Saben is none the worse. She intimated that it is too bad that baseball shields are not in style when car driving.

The fires that have been raging around Winfield are all out and the mosquitoes are now enjoying smoked meat.

Mr. Taylor, our barber, is doing a roaring trade these days, bobbing hair for the ladies young and old. The next thing Winfield will need is a scissor grinder.

Two years ago one could hardly get to Winfield with a wagon. Now about every other person owns a car. How times change.

DUHAMEL

A quiet wedding was solemnized at the rectory of the Roman Catholic church at Duhamel, on Wednesday, June 6, at 9 o'clock, when Leona Faye, youngest daughter of Mr. and Mrs. Albert Hartman, of Kelsey, was united in marriage to Walter O. Marleau, son of Mr. and Mrs. J. O. Marleau, of Ohaton. Rev. Father Bellevaire of Duhamel, officiated. Lillie Marleau, sister of the groom acted as bridesmaid and Elmer Hartman, brother of the bride, supported the groom.

The bride wore a dainty frock of white georgette tastefully trimmed with a silver corsage flower and rhinestones, and wore a white picture hat to match. The bridesmaid wore a dress of navy blue taffeta trimmed with cream lace. Following the ceremony the bridal party repaired to the home of the groom's parents, where a dainty dinner was served to about forty guests, relatives of the bride and groom. After dinner the bridal couple left by motor for a trip to Vancouver and other points of interest at the coast. They will reside at the groom's home south of Ohaton.

The young couple received many beautiful and useful gifts among which was a dainty dinner set from the bride's parents and a generous sum of money from the groom's parents.

The largest silver nugget ever found is "The Keely," taken from an Ontario mine.

***Large assortment of Bathing Caps at Cooke Drug Store.

GEORGE E. JACKSON TO HANG AUGUST 28 AT FT. SASKATCHEWAN JAIL

George Edmond Jackson, self confessed youthful slayer of Mrs. N. Pendleton in the Waskatenau district on February 14, was found guilty of first degree murder by the jury in Edmonton on Wednesday afternoon. They added a rider to their verdict recommending clemency as the accused was a mental degenerate. The jury were out for one and a half hours before reaching a decision. Mr. Justice Tweedie immediately sentenced Jackson to be hanged on August 28, 1928, at Fort Saskatchewan gaol.

In view of the fact that the jury recommended clemency, however, it is possible that the sentence will be commuted to life imprisonment.
